

Rich,

Good morning, I received a phone call yesterday from Albert Smith mentioning that you may need his services. This email is giving you a quick reference on his services that he has provided for us here in Chicago. He has provided us with the highest quality in service and many of my TM's request him to do their details over our paint contractor. He takes allot of pride in his work and you will be very satisfied in what he will bring to you and your customers... He is very easy to work with and most of the time will negotiate his prices on those tight budgets. I've never seen him cut corners but only brings 110% for his work. If you have any additional questions give me a call.

Thanks,

Bobby Tennison

Yard Manager
